

International Workshop on Energy Network Design

Meeting Rooms No. 3-4 on the 8-th Floor of Daigaku-Kaikan
Surugadai Campus, Meiji University, Tokyo, Japan
January 14, 2010

URL: http://www.meiji.ac.jp/koho/campus_guide/suruga/access.html
http://www.meiji.ac.jp/koho/campus_guide/suruga/campus.html

13:30-14:30 H.D. Chiang, Cornell University, USA,
"Development of an Integrated Value-based, Cost-effective Reliability Enhancement Program for Transmission Network Design"

14:50-15:50 Y. Fukuyama, Fuji Electric Systems Co., Ltd., Japan,
" Perspective for Introduction of Distributed Generation in Japan"

16:10-17:10 H. Mori, Meiji University, Japan,
"Recent Trends on Intelligent Optimization in Distribution Networks"

Sponsor:

- Meiji Univ. Graduate School GP(Good Practice) Program on Global Education for Complex Network Research

Co-sponsors:

- Meiji Univ. Global COE Program on Formation and Development of Mathematical Sciences Based on Modeling and Analysis
- Meiji Univ. High-Tech Research Center for Sustainable Energy and Materials in Electrical and Electronics Engineering
